```

Membuat halaman komponen edit image modal

**EditImageModal** adalah komponen React yang berfungsi sebagai dialog modal untuk mengedit detail gambar, khususnya nama dan harga. Modal ini memungkinkan pengguna untuk memperbarui informasi dasar gambar dengan validasi input dan umpan balik status yang jelas.

Yang hasil outputnya seperti ini

The screenshot shows a dark-themed modal window titled "Edit Image Details" with a close button (X) in the top right corner. Below the title is a subtitle: "Update the name and/or price for the image. Price is in IDR." The modal contains two input fields: "Image Name" with the value "Kelanting" and "Rp Price (IDR)" with the value "25000". Below the price field is a note: "Leave blank or enter 0 to mark as 'Not set'." At the bottom of the modal are two buttons: "Cancel" and "Save Changes". To the right of the modal, a blurred preview of the image being edited is visible, showing a plate of food. Below the preview, the text "image\_14-removebg-preview.png" and "Price not set" are displayed. At the bottom of the preview area, there is a date "27 Jun 25, 15:19" and two buttons: "Edit" and "Delete".
