The screenshot shows a Visual Studio Code editor window with a dark theme. The breadcrumb navigation at the top of the editor area reads: `src > app > dashboard > analytics > page.tsx > ...`. The file `page.tsx` is open in the editor, displaying the following TypeScript code:

```
1
2 import { AnalyticsClient } from '@components/dashboard/analytics/AnalyticsClient';
3
4 export default function AnalyticsPage() {
5   return <AnalyticsClient />;
6 }
7
```

The bottom of the image shows the VS Code interface with the `PROBLEMS` panel open, displaying the message: "No problems have been detected in the workspace." The status bar at the very bottom includes various icons and text such as "Add Logs", "CyberCoder", "Improve Code", "Cloud Code - Sign in", "Share Code Link", "Open Website", "Generate Commit Message", "UTF-8", "CRLF", "TypeScript JSX", and "BLACKBOXAI: Open Chat".

membuat file page,tsx di dalam folder analytics
